## Program Overview

---

### Goal of the Program

With an increasingly competitive global job market, employers are now looking for students with international work experience, and this is where KNU can help. Based on a diverse network of Korean companies, including multi-national conglomerates, SMEs, and local government, KNU offers international students the chance to integrate a part-time internship into their exchange semester.

### Types of Internship

Type A (Spring)	12 hours per week (Part-time), 12 weeks or more
Type B (Summer)	1 or 2 months (Full-time)

Types of Internship are subject to each company

### Internship Logistics

The Global Internship Program starts at the beginning of the semester and last for 12 weeks. The Program is unpaid internship and a certain amount of wage from some internships, except International Writing Center (IWC), is to cover your transportation fee and a meal.

### Credit Options

Receiving credits is up to students and not mandatory for the program. To receive credits for your internship, you must fulfill the requirements: 1) Must complete the internship at least more than 140 hours to receive 3 credits and more than 280 hours to receive 6 credits. 2) Submit an evidence-based internship portfolio. 3) Receive a "satisfactory" evaluation by your internship company.

Instructions for the portfolio and an evaluation form will be provided to the students who pass the interview.

### Things to Know

- The program is a bridge between international students and Korean regional company and it does not guarantee hiring with a specific company.

- You must check a credit transfer regulation and any regulation in a business sector/ minimum number of employees.
- Your internship course will be added automatically by the KNU international office in the end of the semester when you meet the criteria of Credit Options.
- Internship credit does not affect your cumulative GPA at KNU.
- It is possible to do a semester internship and continue on full-time internship during a break in the same company, which allow you to get credits from both spring and summer semesters. However, you cannot receive credits for each semesters if your internship program company has changed.
- While master students are welcomed to join the program, internship credits cannot be given to a master degree student according to the KNU academic policy.

## Application Processes

---

### Application

In order to apply for the global internship program, applicants must submit the following via email to [knuinternship@knu.ac.kr](mailto:knuinternship@knu.ac.kr) by February 12, 2021.
