Tenure Track (for non-Korean) Faculty Position in Bioinformatics in School of Medicine at Kyungpook National University

School of Medicine at Kyungpook National University, Korea, invites applications for a full-time tenure-track faculty position at the junior or senior level in all subfields of Bioinformatics including Artificial intelligence, to be appointed on September 1, 2019. Eligible candidates should have a non-Korean nationality, and have a Ph.D. (obtained outside Korea) and postdoctoral research experience. Applicants should possess an outstanding potential to establish an independent research program and a commitment to teaching undergraduate and graduate courses in English. Salary is competitive but non-negotiable and depends on the candidate's experience. Kyungpook National University has about 1,170 full-time faculties, 22,890 undergraduate students and 5,779 graduate students in two campuses: Daegu Campus and Sangju Campus. The School of Medicine is located in Daegu, one of the metropolitan cities in the southeast area of Korea with a population of 2.5 million.
The application deadline is April 30, 2019.

1. Position
This is a full-time tenure-track faculty position at the junior or senior level at the School of Medicine. The position is open to all subfields of Bioinformatics including Artificial intelligence but is classified as an international faculty position (only open to non-Korean scientists).

2. Qualifications
1) Must have a Non-Korean nationality. An applicant of multiple nationalities must renounce his/her Korean nationality before employment contract.
2) Should meet the qualification of full-time faculty under Public Educational Personnel Act of Korea.
3) Should meet the qualification of full-time faculty with Ph.D (under the condition for the Public University of Republic of Korea).
4) Must have obtained a Ph.D. outside Korea.
5) Successful candidates should possess an outstanding potential to establish an independent research program and to mentor graduate students.
6) Successful candidates should have a commitment to teaching undergraduate and graduate courses in English.
7) We are seeking candidates who can either open a new research area in the Department or strengthen the current research activities of the Department. We strongly encourage outstanding candidates in all subfields of bioinformatics, including artificial intelligence to apply.

3. Salary and Conditions of Service
1) Will be appointed according to related laws, acts, and rules of the Kyungpook National University.
2) Employment date will be September 1, 2019.
3) Other benefits as a regular faculty member, which include medical insurance and pension, etc.

4. Documents to be submitted
1) Curriculum Vitae (form in Word file)
2) Publication List (form in Word file): Published within recent 4 years (May/01/2015 – Apr/30/2019)

3) Copy of degree certificates and transcripts for undergraduate and graduate courses.
4) Publication for the Ph.D. thesis: Please select one publication that can best represent the research related to your Ph.D. thesis. * If not in English, a summary in English is required.
5) Five publications representing career achievement: Published within recent 4 years (May/01/2015 – Apr/30/2019). Please give information about five publications that can best describe the achievement of your research.
6) List of 3 references with contact information (form in Word file). We will contact them directly when needed.
7) Career certificates
8) Research plan (free format)
* Please read the instructions at the end of the forms before you fill the application documents.
Other documents (copy of the Ph.D. thesis, etc.) may be required for the selected candidates.
* If not in English, a summary of more than 5 pages in English is required.
Apostille-certified documents will be required for the selected candidates.
Certificate of criminal record issued by the National police agency: includes a criminal history of all domestic areas (Only for successful applicants. A Submission deadline will be notified later.).

5. Application Deadline: **April 30, 2019**.
